The Committee is comprised of Philoptochos National Board members who are very knowledgeable about the history of the current commitment list and offer rational explanations on the reasoning of the requested commitment.

The National Commitments Committee met regularly since March 2023. At each meeting, the Committee selected at least two commitments to determine the following:

- 1) History/purpose of the commitment.
- 2) Current relevance.
- 3) Is the commitment still needed?

Once the Committee has evaluated all of the commitments, a report with recommendations will be submitted to the Executive Board for consideration prior to the 2024 Biennial Philoptochos Convention.

Respectfully submitted,

Athena Kalyvas
Harriet Stoukas
